

FISO DOOR

FMB Series Pre-assembled Metal Building Doors

The FISO Preassembled Door is a high-quality solution tailored for the commercial construction industry. It introduces the first and only fully powder-coated door system, setting a new standard in durability and finish. Featuring a sturdy 18-gauge door leaf and heavy-duty Grade 1 hardware, this door exemplifies superior craftsmanship. From precision fabrication to seamless final assembly, the FISO Preassembled Door stands out for its exceptional performance and sleek, professional aesthetics.
